👤 PROFILE

A passionate professional with great interpersonal and communication skills and an enthusiastic full-stack developer, currently pursuing 3rd year Information Technology

🧠 SKILLS

- | | | | |
|--------------------|---------------|---------------------|---------------|
| • ReactJs | • Javascript | • Firebase | • Web Hosting |
| • NodeJs | • ExpressJS | • MongoDB | • REST API |
| • Material UI | • TailwindCSS | • Bootstrap5 | • HTML & CSS |
| • Java | • Python | • C & C++ | • SQL |
| • Google Analytics | • Hotjar | • Microsoft Clarity | |

📁 PROFESSIONAL EXPERIENCE

Peak Health Technologies Private Limited - Fullstack Developer 🔗

Bengaluru

- Built a stress-checking website using **Reactjs** and **Next.js**, allowing users to measure their **stress levels** using voice as input.
- Monitored and analyzed website traffic using **Google Analytics** to optimize the user experience and increase engagement.
- Collected user feedback through **Hotjar** and used insights to improve website functionality and design.

Controlytics AI Private Limited - Software Developer 🔗

Hyderabad

- During a **four-month** internship, worked as a software developer and built an interface using **Thingsboard** that allows users to set temperature thresholds and view their current temperature, with an alarm triggered if the temperature exceeds the limit.
- Developed a **tracking device** that monitors the movement of vehicles in a specific area while keeping track of when and where they enter and exit.

📁 PROJECTS

Blog-Application 🔗

- Full-featured blog application with a powerful backend API, a dynamic frontend interface, and a scalable database that enables users to easily create and publish their own blog posts
- Permits the uploading of user content in MP3 or MP4 format.
- Provides the facility to manage comments, tags, and other aspects of their blog in real-time

Social Media App 🔗

- Proposes setting up a public profile on a website and participating in social media exchanges.
- Allows the user to connect with friends and family, share photos, and stay up-to-date on current events.
- Users should be able to leave comments on this application, which allows them to like or dislike postings and follow or unfollow other users.

🎓 EDUCATION

B.Tech , Government College of Technology

Information Technology - CGPA:8.30

2020 – present

Coimbatore
